From the sharing with the Beijing Sculptor - Bi Heng, I was really inspired by his passion on Chinese culture, who urges people to protect it, treasure it and more importantly, to extent it by our own creativeness. It is alarming people worship towards foreign culture and sometimes forget our own. I heard more from teens about Panda is "Oh, it's very cute!" That's, rarely to think more about what it can be meant to us. I am grateful to have chance to bring you together to explore and reflect more about Panda from our cover story. Thank for having this learning opportunity to be a Chief Editor, it further trained up myself to think more deeply and with more different angles, not just Panda but anything in our daily life. I am happy to work with our teammates who spared their efforts to complete this publication, without their support, we could not achieve that much.

Message from National President Johnny Kwan

There were many meaningful projects launched by the Local Chapters during the summer holiday.

JCI is a platform for young people to utilize their talent and creative ideas. They can train themselves through serving the community so as to improve themselves in terms of leadership, team work, project management, etc.

We aim to tackle the needs of the local community such as environmental protection, education, elderly, starting up business and so on. Positive values and thinking are very important too. In Hong Kong nowadays, people's political view may easily be influenced by the media and peers, which our values would become polarized somehow. As an Active Citizen, we have to collect and analyze the information thoroughly by ourselves and also voice out our opinions.

I have also come across the Kai Tak development and they have raise the awareness of "Public Creative". Public Creatives is an innovative place branding concept with the aim to foster a visually cohesive identity that reflects the core values and personalities of a place. Public Creatives enhances and strengthens a place brand with a distinctive identity attracting talents locally and internationally. Through all different touchpoints in the public realm, such as street furniture, street naming, art and activities, Public Creatives aims to communicate the place brand of Kai Tak. From the minor details such as a graphic on a rubbish bin, to the organization of a large-scale, international event, everything will have the signature of Kai Tak. Anyone, be it a resident, worker or visitor will notice a strong but subtle visual linkage and then create a sense of belonging once they enter into Kai Tak's public space.

July 26 - 27 there was a JCI Global Summit where all the JCI Global Leader gathered together and worked on the Post UNMDG goal after 2015. As the role of Active Citizen, we should not only actively care about our community in Hong Kong but also care about the global movement. It helps our members broaden their horizon.

Summer is over hopefully all of your JC projects will be held successfully and be recognized among all members and the public. I am looking forward to seeing you all in the National Convention. Thank you very much for all of your contributions.

Be Better!
Unite to Impact! Let's Shine!!

Interview with
Beijing Sculptor – Bi Heng

SCULPTOR – BI HENG

Bi Heng, China born in 1985, graduated from the Sculpture Department of Central Academy of Fine Arts in 2010. Currently works and lives in Beijing and studying at the Sculpture Department of Central Academy of Fine Arts for a master's degree. His artworks have been exhibited since 2008 in different provinces in China.

Pandas are one of the most endangered species on earth. There were estimated to be 1,600 pandas alive in the wild. When people think of China, they often think of panda. People regard them as a symbol for friendship and peace. Other than these, first come to our mind will be the Flash mob of 1,600 paper mache panda in Hong Kong just last summer with the pandas created by the French artist and sculptor Paulo Grangeon and has been on a worldwide tour, featuring over 100 exhibitions in many countries since 2008.

One of our highlight is a giant art installation <Iron Panda> by Beijing Sculptor - Bi Heng. "<Iron Panda> is a combination of three elements - Panda, Iron Man and Tai Chi. It implies sad feelings under the steel behemoth domineering appearance. Mankind are showing pointless power to the nature but, destroying everything for their survival at the same time. The art work implicates the relationship between industrial technology development and natural ecology should be smooth rather than rush." said Bi Heng. Standing at 6m and weighing over 5 tons, the oriental panda is in the western steel armor. The design combines elements of the east and west, popular culture and traditional values. The youth of today is the main source of creation, and their reactions are believed

to be positive toward the future. They had developed step by step from the past learning from its Western counterpart. The youth's creation has taken the advantage of traditional culture and thoughts, and changed to the real experiences via different art exhibitions.

"As a youngster, I hope everyone find it easy to understand my ideas and concept of environmental protection and most importantly, enjoy the artwork, especially children, the future is theirs. Even childhood experience can affect deeply their personality formation and it may determine what the country will be being one of our next generations. I wish young people could no longer work blindly that they just combine those Chinese symbols with some Chinese elements to a pile of work, but their personal interests and social responsibility to spread the spirit of Chinese culture" **shared by Bi Heng.**

PANDAS EVERYWHERE !

Many foreign companies are also using Panda elements on their products. One of the showcases of it is the famous animation movie of Ku Fu Panda produced by American well-known company, Dream Works in 2008. It tipped a great mass fervor on panda, a global multiplayer online role-playing game, World of Warcraft, launched Mists of Pandaria. It is currently the world's most-subscribed with almost seven million subscribers as of August 2014 and holds the Guinness World Record for the most popular massively multiplayer online role-playing game created by Blizzard Entertainment, also an American video game developer. Pandas Element has been seen in Fashion industry. Lots of famous luxury brands such as LV, Cartier, and SWAROVSKI have put their own panda collections on the market.

WHETHER PANDA BE ABUSED?

"Foreigners cannot do that, because they are "foreigners." For the Chinese culture, they are still outsider. Foreigners will not see profoundly, but more objectively. People love the English label and it will be sold much more expensive than local brands, it will form their unique market" mentioned by Bi Heng. He strongly believed the impact of Chinese culture will not be abused because time will tell and uniqueness of china history will discriminate from other. He pointed out that always creativeness and fundamental ideas could identify the authenticity.

CHINA'S SOFT POWER

In recent years, it's a hot topic about China's soft power. China has been very successful at using soft power to bolster its rise to great power status. What is "soft power"? Soft power is a concept developed by Joseph Nye of Harvard University to describe the ability to attract and co-opt rather than coerce. Soft Power also considered as the "second face of power" that indirectly allows people to obtain the outcomes you want. Chinese Culture is one of the paramount aspects of country's soft power.

"To strengthen China's soft power, the country needs to build its capacity in international communication, construct a communication system, better use the new media and increase the creativity, appeal and credibility of China's publicity. The stories of China should be well told, voices of China well spread, and characteristics of China well explained." **Xi Jinping***

While considered Panda as a national treasure and symbol of chinese culture, it also bears a special political role which is another way of soft power building - Panda diplomatic policy, whereas practice existed as far back as the Tang Dynasty. Pandas have been as diplomatic gifts to other countries. The latest case is in April 2014, China sent a pair of Pandas named Fu Wa and Feng Yi to Malaysia to mark their 40 years diplomatic ties. The two Pandas arrived in Kuala Lumpur International Airport on 21 May 2014 and placed at the National Zoo of Malaysia. Local people in Malaysia welcomed and loved them much!

Mentioned the need to increase its soft power, as one of the Chinese, how should young people go side by side with our country development that make our country prosperous?

* Excerpted from Chinese President Xi Jinping's speech 'Elevate Soft Power, Realize the Chinese Dream', in the New Year's edition of People's Daily (Overseas Edition). See Xi 2014.

JCI in the world

Nations work together and help each other to create social impact

ABOUT JCI

200,000 young active citizens grew out of the vision of one St. Louisan more than 90 years ago as a constructive approach to civic problems. Founded in 1915 in St. Louis Missouri, USA by Henry Giessenbier, the movement spread, and Junior Chamber International was founded with eight other countries in Mexico City in 1944. 5,000 JCI Local Organizations and more than 100 countries around the world addressing problems in their communities are united in a global movement creating global impact.

Each JCI Member shares the belief that in order to create lasting positive change, we must improve ourselves and the world around us. We seek targeted solutions to the unique problems in our communities to build a better world, creating global impact. Members understand that in a globalized world, their local actions echo across the globe.

INTERNATIONAL EVENTS

Every year, JCI Members unite in their regions for JCI Area Conferences to exchange ideas, learn how to maximize their local impact and collaborate with other National Organizations in their Area. The four Area Conferences--Africa and the Middle East, Asia and the Pacific, the Americas and Europe--give members a chance to take advantage of JCI's international network while enhancing their National Organizations.

These global forums enable members to focus on solutions for their region and how they can grow, improve, share and create positive change across communities. There are also many invaluable seminars and courses for all members to apply their life and JC assignment.

JCI GLOBAL PARTNERSHIP SUMMIT

At the JCI Global Partnership Summit, the young active citizens of JCI will unite with leaders of business, government and civil society. They will address the critical challenges of our times. JCI will lead the initiative by bringing together its key partners - the United Nations, UN Global Compact, UN Foundation and the International Chamber of Commerce (ICC) - to drive the conversation and redefine, enhance and promote collaboration among these important global players. If you are interested to join this meaningful event next year, stay tune!

The first CSR (Corporate Social Responsibility) Day was successfully held in the SME center, HKCEC on 9th August 2014. As one of the major events by Junior Chambers International Hong Kong (JCIHK) in 2014, it was of great success. Events on that day included social enterprise promotion booths, debate competitions and a forum, where business leaders and social enterprise owners sat together and shared their thoughts without reservation on the latest development of CSR.

As a member of Junior Chambers International, JCIHK has always kept in promoting social responsibility among local corporations. The main theme for the CSR day is "The new Sales Force" which is in line with the main idea of linking CSR with business activities. The organizers has designed a jigsaw puzzle, which implied that CSR should be closely linked with business powers.

The organizers has invited Ms. Florence Hui, SBS, JP, Underscretary of Home Affairs Bureau as the guest of honour for the event. She mentioned in her speech that corporates should work along with social enterprises in promoting civil caring and the culture of social responsibility, promoting the trust and development of the society.

由 國際青年商會香港總會主辦的「青年人眼中的立法會」1分鐘問卷調查發佈於7月28日下午2時於國際青年商會香港總會上環會址舉行。本次問卷調查希望透過這次問卷調查，了解本港18-40歲青年人對立法會的看法，包括立法會功能、議事程序法、主席及議員之期望等等，以便向政府及立法會反映受訪者意見。

**Community
Development**

是次調查收集了303份問卷，受訪對象主要為18至30歲的年青人，擁有大學學位的青年人，每月收入\$15,000-19,999，本次調查將發佈以下內容：

立法會的功能：有54%受訪者反對拉布，44%反對建議限時討論。對於一些有爭議議案，如三堆一爐、東北發展等議題上，有接近1/3受訪者認同先通過後討論，及1/4認同先優先處理其他有共識的議案。此外，有61%受訪者贊成立法會在暑期休會期間加開會議審議議案，並有58%受訪者表示擔心未來香港前景被立法會會議進度拖慢，不擔心只有7%。

對主席及議員之期望：結果顯示，絕大部分受訪者不認同立法會主席需要為政策護航。有75%受訪者反對較激烈的行動表達意見，但近半成受訪者認同議員應以不同手法為市民發聲，近9成人更認為，不應只在會議上投票，而對議案不聞不問。

2014 首屆粵港南沙拜訪交流團暨國情研習班

2014 首屆粵港南沙拜訪交流團暨國情研習班於六月二十八日至三十日順利完滿結束，此次出席班員來自各分會，合共三十一位。三日的行程中，班員分別安排了參觀企業、南沙考察、拜訪交流及安排上課。班員透過行程可以多方面了解中國的發展及進步，而研習班也為班員對國情知識開了一扇門，希望在回港後他們能以第一身身份把所見所聞與朋友分享，從而推動兩地青年更多的交流機會，促進合作互動。

此次活動得以成功，實在要感激中央人民政府駐香港特別行政區聯絡辦公室協調，並得廣東省青年聯合會全面的安排，得以參觀廣州南沙企業、拜訪廣東省人民政府港澳事務辦公室及與廣東省青年委員見面交流，更得到廣州海外聯誼會幫忙安排食宿及於廣州市社會主義學院上課，最後還有廣州市海珠區海外聯誼會建議及推荐肖莉副院長和龐滔副教授為課程講師，課程精采豐富，班員也回味無窮，希望日後可以邀請兩位教授到香港演講，令更多會友可以從他們的寶貴分享中學習。

經過今年拜訪交流團暨國情研習班的成功，日後我們可以與各方協辦單位繼續實行並加強合作，令粵港拜訪交流團暨國情研習班可以每年辦一次或更多，我們也歡迎廣東省青聯及廣州市海聯會等組織青年人到港交流，真正的互動學習，進步共創。

As it happened, their visit coincided with our monthly fellowship gathering. After a short board reporting session, dinner started with entertainment organised between courses, including a rendition of Korean pop star PSY's Gangnam style.

This together with many games and entertainment made the evening a very special one and it brought our two chapters' friendship to ever higher heights. At the end, it did not matter that our members spoke different languages, we were bonded by fellowship.

Members from JCI Sha Tin and its sister chapter JCI Wakayama have been visiting each other every alternate year since the sister pact was signed in 1992. This year JCI Sha Tin was pleased to host this formal visit in Hong Kong. To prepare for an extraordinary experience to the members of JCI Wakayama, the project Organizing Committee team had arranged a fruitful program including a Hong Kong sightseeing tour, a meeting with the Sha Tin District Council Chairman and Sha Tin District Officer, a welcome dinner and more exciting activities. One of the highlights of the visit was the launch of the first friendly football match between members of the two chapters. Two professional football teams experienced a fierce competition and eventually the winner had to be decided by a penalty shoot-out. All members enjoyed the competition as well as the team spirit during the match.
